Security Clamp

- Allows the trolley to be secured to the 'fabric' of the building
- Requires no additional keys, utilises the trolleys own locking system
- One end is secured to the wall, the 'hook shaped' end is trapped by the door of the trolley when closed and locked
- Recommended wall fitting height 1000mm

Item	Description	Dimensions	Weight	Price
MT/1/6F	Security Clamp	Length - 950mm	0.75kg	£18.30

Important Note - Security Clamps
It is a UK requirement that when the trolley is not in use it should be secured to the 'fabric of the building'. Not only does this prevent casual theft, i.e. trolleys being pushed to an isolated area and broken into, but also encourages good nursing practice, giving the trolley a 'permanent home'.
