

Phlebotomy Product Catalogue 2018

Manufacturing Medical Furniture & Equipment Since 1953

Welcome

Supplying Medical Furniture & Equipment Since 1953

With 65 years' experience, Bristol Maid is recognised for designing, manufacturing, sourcing and delivering market leading products that are fit for purpose, easy to use, reliable and above all represent value for money.

This brochure focuses specifically on equipment that is used for Phlebotomy, ranging from our popular Caretray Trolleys configured with ergonomic push handles, ideal where the trolley is wheeled for long periods of time, through to variable and fixed height chairs, equipped with adjustable polyurethane armrests.

Whilst this brochure focuses on specific product lines, our full range can be found on www.bristolmaid.com; alternatively if you require further assistance, please do not hesitate to contact our friendly and helpful customer service team to run through your queries, or alternatively arrange for one of our sales team to visit to help find a solution that best suits your requirements.

PBTM1/10/3S2D -Trolley supplied as standard with the push handle positioned on the l/h side. Customer can reconfigure to allow the handle to be on the r/h side by rotating the top & repositioning the trays

Phlebotomy Trolleys

Features

- Single column standard level phlebotomy trolleys
- Designed for quick & easy complete disassembly when conducting thorough or deep cleaning programmes (including steam cleaning)
- Available in mild or stainless steel (requires no on-site assembly)
 - Fully welded mild steel frame that is blast finished & powder coated in a durable epoxy paint
 - Seamlessly welded one piece frame from 304 grade stainless steel
- Ergonomic push handle fitted to one side of the trolley ensures correct posture & keeps feet away from the frame, ideal for mobile phlebotomy or in cases where the trolley is wheeled for long periods of time
- One piece moulded top with raised edges on three sides & integral rim at the front to contain any spillages (max load 30kg)
- One piece moulded side panels incorporate runners with positive stops, preventing trays from being accidentally withdrawn
- Carerails fitted to each side of the trolley to support a wide range of accessories (see options)
- Trolley pre-configured with the following accessories...
 - Single Sharps Box Holder - Accepts sharps boxes up to seven litres capacity. Sharps box secured using a rubber band fitted with a toggle
 - Alcohol Gel Holder - Accepts bottles with maximum 90 x 90mm square base
 - Single Glove / Mask Box Holder - Accommodates glove & mask boxes up to 150mm in width
 - Debris Bin & Bracket - Plastic debris bin & bracket (internal dims 200 x 135 x 100mm)
- 100/150mm deep translucent high impact plastic trays feature an integral handle with plastic clip on label cover, (max load per tray 5kg)
- Each trolley is supplied with perforated coloured label strips (white, blue, green, yellow & red)
- Trays can be subdivided in both length & width using simple slot in dividers (each tray supplied with 2 x long & 2 x short dividers)
- Polyurethane ring buffers offer protection to both the trolley & fabric of the building; smooth surfaces assist cleaning
- 100mm polymer castors offering smooth surfaces to assist cleaning, 2 off braking

Standard Colours

- Paint - Spearmint

Dimensions

- Plastic Top
 - Single Column - 455 x 455 (internal) at height 968mm
- Trays
 - Shallow Tray - 355 x 405 x 100mm (internal)
 - Deep Tray - 355 x 405 x 150mm (internal)

Options

Vinyl Information

Flame Retardancy

BS5852: Clause 11 (composites): 2006: Ignition Source 5 when tested in combination with CMHR foam.

BS7176: 2007 for Medium Hazard applications.

Waterproof Capability

Is Hydrophobic, will not absorb water or retain dampness & can be completely dried after washing

Stain Resistance

Resistant to most mild acids, alkalis, drinks & household stains

Cleaning & Maintenance

Vinyl's are resistant to most mild acids, alkalis, drinks & household stains. Clean with a damp soapy cloth & rinse well with clean water. Do not use solvents, bleaches*, abrasives, synthetic detergents, wax polishes or aerosol sprays. Disinfectants may be used in dilution as specified by their manufacturers.

*Chlorine Releasing Agents: Levels of 1-10,000 parts per million should pose no problems as long as the material does not endure long soakings at the higher concentrations. Rinse well with clean water. These include Haz-Tabs & other disinfectants commonly used in hospital infection control programmes. Surfaces are Nadcc compatible

Anti-Microbial

Contains an anti-microbial agent effective against the spread of MRSA, E.Coli & other harmful bacteria. Clostridium Difficile cannot multiply under normal aerobic conditions

Abrasion Resistance

ISO7617-1: 2001. Martindale abrasion in excess of 300,000 rubs. Tested in accordance with BS EN ISO 12947 1, 2, 3, 4.

Surface Finish

Leather look

International Sales

Bristol Maid's policy is to work together with selected partners who are able to support and advise in the selection of appropriate 'Healthcare Solutions', also providing a high level of customer care and portraying our traditional values. Our continued success and growth within international markets has created a demand for additional partners.

We are seeking to encourage applications from interested parties. If you, or your organisation have the qualities we are seeking please contact us.
