*Not compatible with the Dell laptops using the N17 wedge lock system.
Security Clamp Features
• Allows the trolley to be secured to the 'fabric of the building'
• Requires no additional keys, utilises the trolley's own locking system
• One end is secured to the wall, the 'hook shaped' end is trapped by the door/lid of the trolley when closed & locked
• Recommended wall fitting height approx. 1000mm

Important Note - Security Clamps
It is a requirement that when the trolley is not in use it should be secured to the ‘fabric of the building’. Not only does this prevent casual theft, i.e. trolleys being pushed to an isolated area & broken into, but also encourages good nursing practice, giving the trolley a “permanent home”.

“Safe & Secure Handling of Medicines – Royal Pharmaceutical Society, GB-March 2005”

Distribution Trolleys - Lockable Drawers Features
• Trolleys suitable for the distribution of drugs & medicines from pharmacy to the ward & also with self-administration/patient own drug schemes
• Provide secure drug delivery using drawers which, when locked and securely fastened to the trolley
• Boxes are fitted with a CAM lock, supplied with two keys
• Supplied as standard with locks to differ, allowing each ward to have its own key & be responsible for removing the drawer from the trolley
• Max capacity per drawer 3kg
• Master keys are available (additional cost)
• Upper work surface
• Push handles
• Document pockets fitted to one end of the trolley
• Low level corner bumpers to protect the fabric of the building
• 125mm swivel castors, 2 off braking

Dimensions (w x d x h)
• SA005 - 1026 x 523 x 1002mm
• SA025 - 1180 x 523 x 1002mm
