General Information

Dimensions & Weight

- Dimensions are stated in millimetres (width x depth x height)
- Weights are stated in kilograms
- Please ensure you are aware of the item size and weight prior to ordering

Castors

- All castors are fitted with non-marking tyres (with the exception of some anti-static versions)
- Anti-static castors can be identified by a yellow thread guard or a yellow mark on the edge of the tyre
- Castors are selected to suit the anticipated use of the trolley / piece of equipment
- Castors and wheel bearings do not require specific maintenance other than regular cleaning. The use of oil will breakdown the grease applied to the bearings, reducing the life of the castor. We recommend that fittings are checked regularly and re-tightened as required
- Where anti-static castors are fitted, we recommend that the tyre is periodically cleaned to remove any dirt to ensure a good contact between the tyre and the floor

Locks & Keys

- Locks should operate smoothly. If they do not, please arrange urgent attention and where necessary obtain a replacement
- Locks require only minimal maintenance and should only be lubricated using a dry lubricant such as graphite which can be purchased from most locksmiths (NEVER USE OIL)
- When ordering replacement locks or keys, please ensure that the product code, and any letters / numbers from the key and lock are available

Paint

- We only use lead-free epoxy / polyester powder paint
- Where possible colours are applied in special booths to allow for overspray to be recycled
- Alterative colours are available, this may be incur a small surcharge

Stainless Steel

- We use 304 and 430 grade stainless steel
- Grade 304 is non-magnetic and used on products which are not painted
- Grade 430 is magnetic and used on painted products
- Other grades are available on request, i.e. 316
- Please note that the term ‘stainless’ is not entirely accurate, as certain chemicals can ‘eat’ into the surface. In particular ‘iodine’ which can badly corrode / stain and as a result should not be used as a cleaning agent

Laminate & Wood Products

- Wood products are manufactured from FSC accredited materials
  - Flame retardant ‘High Pressure Laminate’ bonded to MDF
  - Melamine faced MDF
- Edges are protected with 2mm ABS / T-Barb edging or sealed with varnish
- Both laminate and melamine panels offer some resistance to water penetration under normal usage
- We only use water based adhesives and varnishes

Upholstery

- Upholstered panels are manufactured from ‘Flame Retardant’ materials, independently tested to ‘BS5852 Ignition Source 5’ (BS7176 Medium Hazard)
- Vinyl’s offer resistance to:
  - Melsept SF - Code CH - B:4422M32 (0.5% / 5%)
  - Hexaquart S - Code CH - B:406432 (1.5% / 5%)
  - Meliseptol - Code CH - B:4273M92 (Undiluted)
- All foam is 'Fire Retardant' and free of ‘Hexa-Bromo-Cyclo-Dodecane’

Latex

- All products are latex free

email: sales@bristolmaid.com  fax: +44 (0)1258 455056
The maintenance of high standards of cleanliness on all surfaces and equipment is a crucial factor in the prevention and control of infection. Whilst dust, dirt and moisture can harbour infection, the key risks are associated with contamination arising from contact with blood, body fluids, mucous membranes and damaged skin. In all cases surfaces must be thoroughly cleaned and disinfected in order to destroy pathogenic microorganisms.

Bristol Maid products have been designed for use in demanding environments; full cleaning instructions can be downloaded from www.bristolmaid.com.

WEEE Regulations

Hospital Metalcraft meets its obligations as a business to business producer of Electrical and Electronic Equipment (EEE) through:

- Membership of the Veolia Environmental Services WEEE, (Waste Electrical and Electronic Equipment), Producer Compliance Scheme (Registration No. WEE/KE0677RX)
- Marking EEE placed on the market by Hospital Metalcraft with the mandatory crossed out wheeled bin symbol and Bristol Maid logo
- Making information available, (for EEE placed on the market after April 2007), to assist those engaged in treatment, recovery and recycling activities
- Arranging for the collection, treatment, recovery and environmentally sound disposal of obligated WEEE

Customers are advised that infected medical devices are not included within the scope of the WEEE Regulations and that arrangements described above do not extend to such products

How To Order

- All orders are required in writing, either by fax, email or post. Unfortunately we cannot accept orders over the phone.
- Orders should be submitted as an ‘official purchase order’ on company headed paper. All information should be clearly displayed.
- Your order should contain the following - invoice address, delivery address, full contact details (name, phone & fax number) item codes along with descriptions and prices.
- If applicable, please ensure our quote number is detailed on your order to ensure any agreed discounts are applied.
- Item codes and descriptions in this catalogue supersede all previous editions.
- A full price list can be requested from our website.
- Payments can be made by cheque, bank transfer or credit/debit card (with the exception of American Express).
- If you are a new customer, the first three orders will be processed on a proforma basis, paid in full prior to manufacture & delivery, after which a credit account may be applied for.
- For our terms and conditions refer to www.bristolmaid.com.
- For further information and assistance, please contact our customer services team on +44 (0) 1258 484455.

After Sales Service & Support

Bristol Maid™ products are designed and manufactured to meet the demands of everyday use, which under normal conditions should provide many years of trouble free operation.

Please contact our Customer Services Team to discuss your requirements:

- Product placement & removal of packaging
- Installation & commissioning
- Training
- Supply of spare parts
- Full service & repair support
- Maintenance contracts
- Site audit & equipment recommendations
